

Once you're on the beach, the only decision you'll want to make is to sunbathe on the beautiful sandy beach looking around clusters of islands with blue sea.

“Nishime Beach” is located on the coast of southwestern Kamiamakusa City. Surrounded by a calm atmosphere, it is great for you to be undisturbed.

The good things for here is you are able to take a shower after sunbathing. In addition, there is a beach house with a café and sauna, including having a BBQ, which we recommend booking in advance.
