## One of Charming Hot Spring Villages

## Kamiamakusa Onsen Village

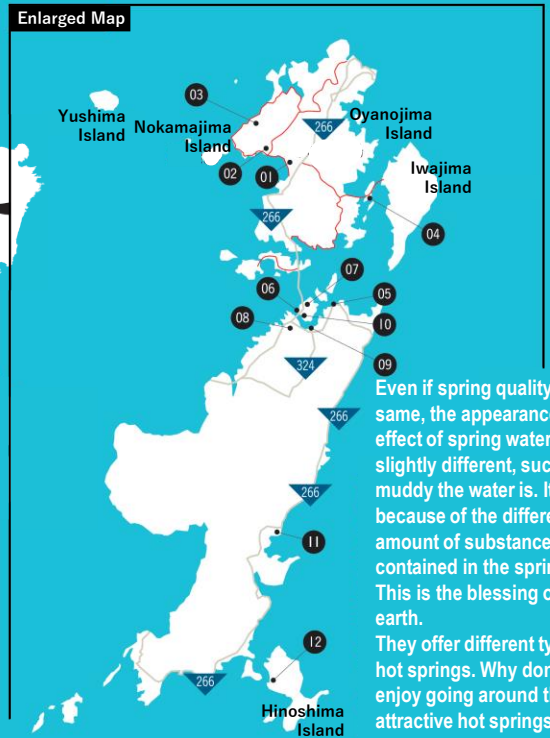

Here in Kyushu

“Hot spring” is the blessing of nature from deep in the ground. It is said that hot springs have the following effects depending on spring quality. Generally, it helps warm body and the spring qualities are effective for health promotion and improvements of the skin condition. A therapeutic bathing method known as *toji* (hot spring cure) exists since ancient times. “Be healed, be mentally and physically healthier, and be more beautiful skin.” With this kind of expectations, a number of people go to hot springs not only from Japan but also from other countries. People’s desire for “healing and relaxing” would be worldwide. This KAMIAMAKUSA ONSEN VILLAGE is also going to make your body and mind healed and relaxed with the precious hot springs as well as with “magnificent view and tasty food”. Please come and visit the healing and relaxing village in order to get away from the hustle and bustle of your life especially for the person who have been working hard. The spring water is not too hot and not too tepid but perfect temperature.

# What is Kamiamakusa Onsen Village ?

Here in Kyushu

## Where is it?

Located at the north gateway to Amakusa archipelago of Kumamoto prefecture.

## What kind of spring qualities?

Chloride spring, hydrogen carbonate spring, simple hot spring

Spring water of *Matsushima Onsen* is produced from a spring source and provided to each of hot spring facilities.

Spring water is supplied to Matsushima Onsen facilities passing down through the fifth bridge of Amakusa Gokyo.

Each facility of *Oyano Onsen* has its own spring source.

It is a place characteristic of having many of turbid hot springs.

There are so many positive synergies of Kamiamakusa Onsen Village.

In addition to moisturizing and warm keeping effects, there are marvelous views of the islands, delicious foods produced from the sea and mountains, and the warm climate. It is said that these synergistic effects make people "healthier and more beautiful", and many of women have been becoming fans of here.

Even if spring quality is the same, the appearance and effect of spring water is slightly different, such as how muddy the water is. It's because of the differences of amount of substances contained in the spring source. This is the blessing of the earth. They offer different types of hot springs. Why don't you enjoy going around the each attractive hot springs.

## Hot springs

The main spring quality 'chloride spring' warms your body and covers your skin with salt veils having a moisturizing effect the same as you apply a pack on your body. You'd better rinse your body with fresh spring water after you have finished bathing in order to keep your skin moisturized.

## Delicious Foods

There are plenty of Amakusa's ingredients, such as not only fresh seafoods, but also the premium branded chicken 'Amakusa Daio' and agricultural and marine products that utilize the warm climate. In addition, the superfood 'Sargassum horneri' produced here is also treated as a special product.

## Marvelous Views

The Amakusa Go-kyo (the Five bridges of Amakusa) and the surrounding islands are like floating in the blue sky and sea world, and the view is magnificent. The sunset from here has been selected as one of the best 100 sunsets in Japan and the sunset over the ocean is also breathtaking.
